

## Human Capital Management Platform

Forework is the first employment technology company that has combined the full spectrum of employee management functions, to modernize every single aspect of the employment relations. From hiring and onboarding, to compensation systems, payroll processing, tax filing, day-to-day human resources support, and related employment tax recordkeeping, Forework does it all for employers of all sizes.

### **Recruiting & Onboarding**

Streamline the recruitment process with our job descriptions, interview support, and candidate tracking system.

### **Human Resources**

Use our employment attorneys and human resources consultants any time to receive answers to complicated labor and employment questions.

### **Learning Management**

Ensure all your employee training is done, virtually and in-person. You choose the option that best suits your business.

### **Payroll & Tax Compliance**

A payroll system that tells you how to pay employees correctly and ensures timely payroll processing and tax filing.

### **Time & Attendance**

Track and manage employee attendance, and then use the data intelligently to make employment and business decisions.

### **Reporting & Analytics**

Spend less time searching and more time analyzing the data you need to make critical business decisions.
